

It's just a dream, a day of Angel's smile  
With no name, with no fear

I.

I was just a little girl, lonely girl with no reflexion.  
And you flew across my world, started to control my reactions.

Ref.

You have to stay with me, stay with me  
As long as you'll still need me.  
You've got to stay with me, stay with me  
No matter how hard it will be

II

Then I realized, that my dream is really fragile  
So I've got to change my mind, I finally convinced myself  
That this is you, and this is me  
We're living apart, but still as a family  
What will come, and what will be  
If you stop, stop loving me

Ref.

You have to stay with me, stay with me  
As long as you'll still need me.  
You've got to stay with me, stay with me  
No matter how hard it will be  
You'd better lie to me, cry for me  
If you just still want to be with me  
You have to come kiss me, come kiss me!
